

WELCOME TO BERMUDA.

THE MULTI-CHAIN MOONER.

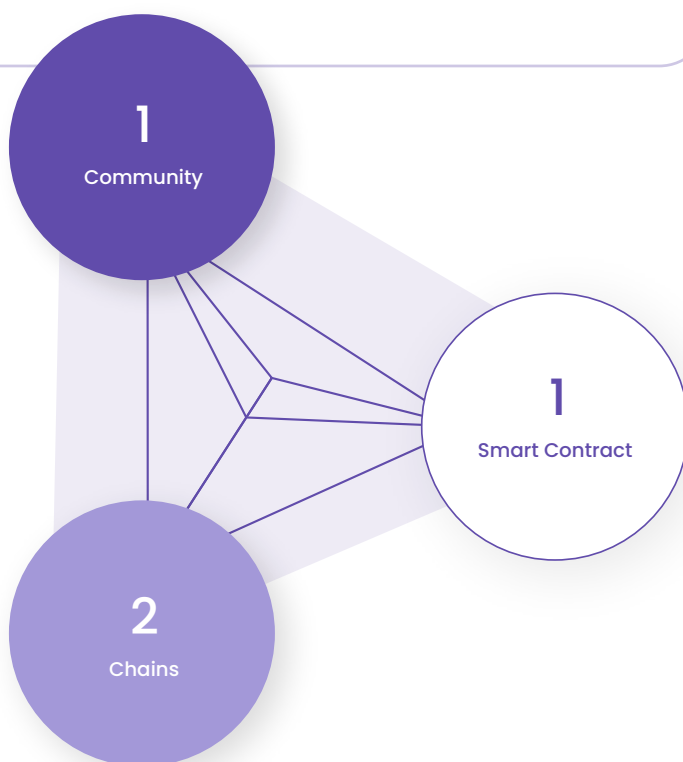

ABOUT BERMUDA

Bermuda is a ERC20 and BEP20 based cryptocurrency project that represents 3 sides of a triangle.

THE CRYPTO TRIANGLE

THE 3 PILLARS TO THE CRYPTO TRIANGLE

MAY 2022

[More info on the next page.](#)

2

PILLAR ONE | ETH TO BSC

The BSC contract supplied 25% of the total supply to the bridge, and burnt 50% of the total supply, making the combined total supply of both chains 1,000,000,000,000 tokens.

PILLAR TWO | FLOOZ X CRYPTOCARTS

The team has already approached Flooz and is beginning to onboard a Crypto-Fiat On Ramping option that will allow for acquisition of ETH and then direct swapping to Bermuda.

PILLAR THREE | STAY PROTOCOL

The STAY Protocol (Safe Trading and Yield) is our third pillar. We will be using our marketing funds to invest in a number of different strategies (stable coin yields, futures trading etc). These will be directed by experts in their respective fields, and profits will be returned to holders.

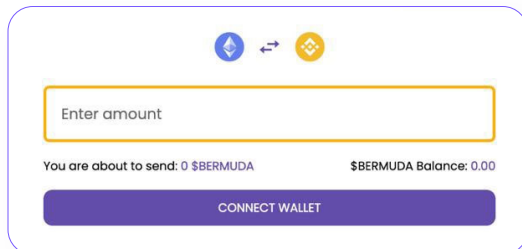

PILLAR 1 | ETH TO BSC

FIGURE 1.

SCROLL TO PREVIOUS PG FOR TLDR;

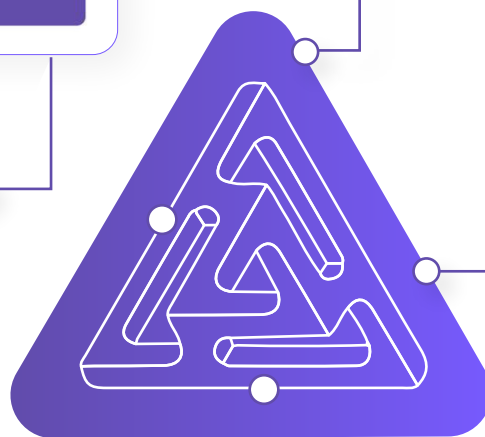

Side 1, representing multi-chain technology and a custom BEP to ERC20 bridge, that will allow for users who prefer to swap not paying gas fees a chance for acquisition, and also allow for arbitrage opportunities as we continue to increase in Market Cap.

The BSC contract supplied 25% of the total supply to the bridge, and burnt 50% of the total supply

PILLAR 2

FLOOZ & CRYPTOCART

X

cryptocart

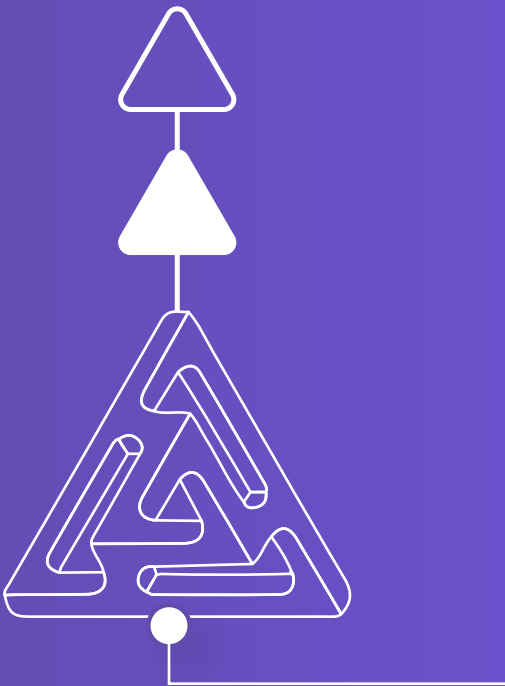

Pillar 2, Is our cryptocurrency x fiat pillar, but really it is much more than the ability to obtain \$MUDA with fiat (which you can actively do on our website currently via flooz for both chains).

Pillar 2 also involves a CryptoCart partnership, in which we are in the works of forming, and once we are on CoinGecko and CoinMarketCap is all but a reality, which will allow all of our holders the ability to directly acquire gift cards for over 500,000 name brand stores with their \$MUDA tokens directly.

After the CryptoCart partnership, our next plan is to move on to NOWPayments and ChangeNow, actively getting us listed on both ChangeNow's exchange but also within NowPayments system (who is an official partner of Twitch, and many other successful organizations). NowPayments will allow businesses to pay their employees with \$MUDA, streamers and other charities to receive donations with \$MUDA and much more.

STAY PROTOCOL

PILLAR 3

Side 3 will represent our multi faceted yield strategy, the STAY protocol. We aim to utilise our existing team and bring on board those who have shown excellence in their chosen fields (farming, fundamental/ technical analysis, futures, and etc.) to produce the best possible returns for our holders.

TOKENOMICS

LIMITS (MAX WALLET AND MAX TX)

TAXES

See our amazing smart contract functionality

LIMITS

- 1.5% max transaction
- 2% max wallet
- *Limits can change at any time

ETH LOCKED LIQUIDITY

- Bermuda LP Tokens are locked for 280 days and will be extended appropriately

TAXES

- 15% if selling within 24 hours of first buy
- 4% otherwise

BSC LOCKED LIQUIDITY

- Bermuda LP Tokens are locked for 280 days and will be extended appropriately

GAMEPLAN

Bermuda Has A Future Only You Will Decide

Centralized Exchanges

We recognize that exchange listings are a necessity for project growth.

Brand Strategy

With amazing graphic design artists throughout the space, we plan to bring on some of the best of the best to help assist and ensure we are presenting the best strategies moving forward to make Bermuda a viral brand.

Marketing

We understand marketing and how to prioritize; ensuring the community has the necessary tools to continue shilling for future growth. Rest assured the Bermuda team can handle all things necessary to push its capabilities to level 1.

Future Utility

Although not a necessity for project growth, in today's context utility is always valuable when presented with real use case.

Presentation

You will see the power of proper communication, brand engagement, and true team work when Bermuda starts to move, and it will go viral. Join us today.

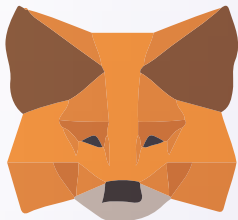

Community

With community being the number one priority, it is indeed what decides the fate for all decentralized tokens.

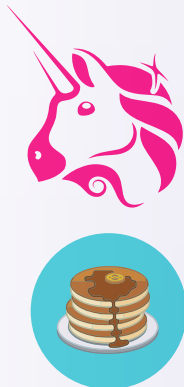

HOW TO EFFECTIVELY PARTICIPATE

Your investment. Why not participate?

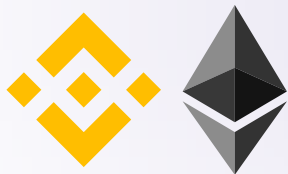

STEP 1

Create Metamask Wallet

STEP 2

Visit Uniswap or Pancakeswap

STEP 3

Swap ETH or BNB For Bermuda
